E4SY KIDS SYSTEM

LESS EFFORT, MORE FUN

The new Junior Rail System makes skiing super easy thanks to the low weight and the smoother flex. The new shape of the sole lug and softer brakes allow the kids to step in and out of the binding within seconds and without any help. Compatibility with all ski boot types (A/C/GW A/GW C) completes the new system.

FEATURES

THE NEW STANDARD FOR KIDS' SKIING EQUIPMENT

Start them early, and start them often. With a high quality construction, kids will learn faster and ski longer than ever before. The Supershape Team is an on-piste ski for children who can already ski. It delivers good stability and helps the kids race up the learning curve.
